Who We Are

Vital Electrocomp is one of the leading manufacturers of terminal blocks in India. In addition to PCB type and din rail terminal blocks, Vital also offers a wide range of products like barrier terminals, fuse holders, micro switches, toggle switches, push button switches, power entry components and other customised products.

Vital Electrocomp's wide spread sales network is well complemented by infrastructure dedicated to processes like product design and development, research and testing, tool room for manufacturing moulds and dies, injection moulding, sheet metal manufacturing and third party testing laboratory.

Vital Electrocomp functions with quality management systems based on ISO 9001:2015 and all relevant processes and systems are mapped and supported by the ERP system. Vital's majority products are approved with UL, CE. All Vital products are RoHS compliant. Over two decades of incessant dedication and commitment have made Vital a synonym for connectors in the Indian market.
